2. **Brand Story**

Aula Nativa was born from the idea that learning in Colombia should reflect Colombia — its cultures, its colors, and its biodiversity.
To embody this, Aula Nativa introduces Pico, a vibrant, wise, and playful Colombian toucan who accompanies students from 1st to 11th grade, growing up alongside them.

Pico is not only a guide — he represents voice, curiosity, and expression, the traits that define great learners and communicators. Pico's friends, a group of animals and plants from the Colombia biodiversity, help him by supporting students in their learning journey.
